

## April Gardening Tips

**Lawns:** Fertilize & treat moss. Remember to consider that what you use can affect the quality of our water from runoff. So, follow manufacturer's suggestions carefully.

Fact Sheet # 115: Renovating and Maintaining Home Lawns

Fact Sheet #114: Removing Moss from Your Lawn

Fact sheet# 97: Moss on Roofs

**Plant Berries:** Strawberries, blackberries, blueberries, and raspberries

**Plant Dahlia tubers** (wait until next month to set out annuals and perennials – when the danger of frost has passed).

**Get after slugs** – use care with pets

**Start vegetable seeds** indoors and outdoors. Fact Sheet # 8: Starting Vegetable Indoors/Outdoors.

Seedlings that were begun indoors can be transplanted into larger pots when they have their second set of true leaves.
