# Natural Yard Care Workshop Schedule

## Mark Your Calendars!

Our workshops teach you how easy and rewarding natural yard care can be. They're fun, informative and FREE. The workshops are conveniently located at Rainier Middle School, so bring a neighbor and come learn about healthy, natural yard care.

### Workshop 1: Garden Design & Growing Healthy Soil

Wednesday, April 20, 7–9 p.m.

Beautiful landscapes start with good design. Doug Rice, landscape architect and former co-host of *Yard Talk* on KCTV, will offer professional advice and resources in **Garden Design** to get you started right. Next, Lisa Taylor, formerly with Seattle Tilth, will discuss the importance of **Growing Healthy Soil**. Learn how to improve your yard's soil – and grow attractive, robust plants – by mulching, composting and top dressing.

### Workshop 2: Designing a Natural Lawn & Smart Watering

Wednesday, April 27, 7–9 p.m.

Ladd Smith from In Harmony Sustainable Landscapes will speak on **Designing a Natural Lawn**. He'll discuss mulch mowing,

slow-release fertilizers and other natural ways to grow a beautiful, healthy lawn. Greg Butler of Design of the Times will follow with **Smart Watering**, a presentation brimming with ideas to save money by using less water in your yard and garden.

### Workshop 3: Designing with Plants & Natural Pest Control

Wednesday, May 4, 7–9 p.m.

Hear Greg Rabourn, the former co-host of KCTV's *Yard Talk*, speak on **Designing with Plants**. He will present a segment on beautiful plants that will thrive in your yard's conditions. The evening ends with **Natural Pest Control** by Dan Corum. Dan will have advice about the best products, methods and tools for controlling pests, learned during his years at Woodland Park Zoo.

You Could Win

### You could win free natural yard care products and services!

At each workshop we will randomly draw from the names of everyone present for great natural yard care prizes.
