What is "Imagine Auburn"?

Auburn is creating a new Comprehensive Plan to guide the City's future. "Imagine Auburn" is the first phase of this process, and it begins and ends with you!

Your involvement helps ensure that the new plan reflects the needs of your family, your community, and your city.

This visioning process is exploring questions such as:

- **What do we wish to be and achieve as a community?**
- **What about Auburn should we change?**
- **What should we strive to preserve?**
- **What can we do better to make Auburn a safe, healthy, and prosperous place for individuals, families, and businesses?**
