• Create a program where homeless are hired daily to help clean the community (Lead: Non-profit service providers)

• Ensure police have information to provide service and shelter referrals to homeless individuals (Lead: City)
Expand emergency shelter options

• Advocate to require utilities to expand subsidy for low income customers
Other

• Create best practice training for all systems to build connections between agencies *(Lead: Nonprofit shelter/service providers)*
31 other recommendations

• It will take committed action by all parts of our community to make sustainable progress.
Moving forward

• The challenge is complex. There are many paths into homelessness. There is not a simple, one-size-fits-all path out of homelessness. There is no quick fix.

• But -- there are things we can and should do as a community to address homelessness.

• Remember that many of the homeless are our neighbors.

• We have asked for the creation of an “implementation committee” to help drive forward our recommendation.

• We have asked to be reconvened in six months to review progress.

Thank you!
