CITY OF AUBURN STANDARD NOTES

GENERAL NOTES
1. Any design or project work, connected to the city of Auburn, must be designed in accordance with the approved plans and specifications. Changes to the approved plans or specifications may be made only through the approval process and procedures established by the City of Auburn.
2. All construction work shall be performed in accordance with the plans and specifications submitted to the City of Auburn, and as approved by the appropriate City of Auburn department. Substitutions or deviations from the approved plans or specifications may be made only through the approval process and procedures established by the City of Auburn.
3. The construction contractor shall be responsible for the work performed on the site and for any damage caused by the contractor's work.
4. The City of Auburn reserves the right to approve or disapprove any plans or specifications submitted for consideration.

GRADING AND EROSION CONTROL NOTES
1. All grading and erosion control work shall comply with the City of Auburn's grading and erosion control standards and specifications.
2. All grading and erosion control work shall be approved by the City of Auburn prior to commencement of work.
3. All grading and erosion control work shall be monitored by the City of Auburn to ensure compliance with the City of Auburn's grading and erosion control standards and specifications.

FIRE SPRINKLER SYSTEMS NOTES
1. All fire sprinkler systems shall comply with the City of Auburn's fire sprinkler system standards and specifications.
2. All fire sprinkler systems shall be approved by the Fire Department prior to installation.
3. All fire sprinkler systems shall be monitored by the City of Auburn to ensure compliance with the City of Auburn's fire sprinkler system standards and specifications.

CROSS CONNECTION CONTROL NOTES
1. All cross connections shall be controlled to prevent contamination of the water supply.
2. All cross connections shall be approved by the City of Auburn prior to installation.
3. All cross connections shall be monitored by the City of Auburn to ensure compliance with the City of Auburn's cross connection control standards and specifications.

SIGNAL CONSTRUCTION NOTES
1. All signal construction shall be performed in accordance with the City of Auburn's signal construction standards and specifications.
2. All signal construction shall be approved by the City of Auburn prior to installation.
3. All signal construction shall be monitored by the City of Auburn to ensure compliance with the City of Auburn's signal construction standards and specifications.
