

January 13, 2023

We're excited to announce it's time to put those gloves on and dust off your shovels for the annual Auburn Clean Sweep event. In celebration of Earth Day, we have declared Saturday, April 22 as **Clean Sweep 2023** in the city of Auburn and we need your volunteer support for this special project. This is a time to gather and work together on projects that benefit our community!

We will be hosting our traditional breakfast the morning of the event. Please join us at the Auburn Community & Events Center for a warm welcome, group photo and a delicious meal before sending you off to your project sites.

The goal of Clean Sweep is to bring our community groups together and focus on clean-up and beautification efforts throughout the city. Volunteer groups will work on general clean-up, landscaping and weeding at parks, trails, and other sites around Auburn. Volunteers can choose to participate in a specific project, or ask to be assigned, in which case, your group will be assigned where the most volunteer support is needed.

We invite you to participate in this community-wide volunteer event. Come as a group, wear your group t-shirts and work alongside your fellow citizens as we transform Auburn. To register, please visit www.auburnwa.gov/events.

For questions or any additional information, please email our event staff at events@auburnwa.gov or call 253-931-3043.

We truly appreciate your community service in working together for a beautified Auburn!

Sincerely,

Nancy Backus
Mayor
