

**NOTICE OF REVISIONS TO
CITY OF AUBURN ENGINEERING DESIGN AND
CONSTRUCTION STANDARDS
EFFECTIVE DATE 10/15/2016**

The City of Auburn Engineering Design Standards and Engineering Construction Standards (Part 1 – Special Provisions and Part 2 – Standard Details) have been re-issued in their entirety. The effective versions are no longer being distributed as hardcopies and are available electronically on the City’s website at:

http://www.auburnwa.gov/doing_business/public_works/publications_forms.htm

In accordance with ACC 12.04.040 hardcopies of the standards have been filed with the City of Auburn City Clerk for use and examination.

Summary of Revisions:

Design Standards

- Updated references to Standard Details and WSDOT Standard Plans.
- Minor errors and inconsistencies corrected.
- Process descriptions updated to match current practices.
- Re-formatted for electronic distribution.

Construction Standards – Part 1, Special Provisions

- Updated to 2016 WSDOT Standard Specifications.
- References to specific Standard Details and WSDOT Standard Plans removed. These references are now in the design standards. Construction plans are required to specify applicable details with the detail name and number including the version.
- Minor errors and inconsistencies corrected.
- Re-formatted for electronic distribution.

Construction Standards – Part 2, Standard Details

- Re-numbered to allow for version control.
- Re-drafted with consistent line types, hatch patterns, and reference call-outs.
- Obsolete details removed.
- Minor errors and inconsistencies corrected.
