

**NOTICE OF REVISIONS TO
CITY OF AUBURN ENGINEERING DESIGN AND
CONSTRUCTION STANDARDS
EFFECTIVE DATE 1/1/2017**

The City of Auburn Engineering Design Standards and Engineering Construction Standards (Part 1 – Special Provisions, Part 2 – Standard Details, and the City of Auburn Surface Water Management Manual (SWMM)) have been re-issued in their entirety. The effective versions are no longer being distributed as hardcopies and are available electronically on the City’s website at:

http://www.auburnwa.gov/doing_business/public_works/publications_forms.htm

In accordance with ACC 12.04.040 the standards have been filed with the City of Auburn City Clerk for use and examination.

Summary of Revisions:

Design Standards

- Various minor edits including additional definitions, formatting, and reference corrections.
- Deviations process and documentation requirements updated.
- Plans requirements updated.
- Various utility design and easement requirements updated.
- Street design updated to address Low Impact Development (LID) requirements, including permeable pavements and bio-retention swales.
- Local residential street design requirements updated to include minimum landscape strip design parameters and LID.
- Various tables and figures added and/or updated. Table 10-1 updated.

Construction Standards – Part 1, Special Provisions

- 2016 APWA GSPs for Permeable Pavements added to various sections.
- Insurance requirements added to Division 1.

Construction Standards – Part 2, Standard Details

- Details W-09.2, W-20.2, W-06.2, and T-04.2 issued.

City of Auburn Surface Water Management Manual

- City of Auburn Surface Water Management Manual re-defined to be the 2014 Department of Ecology Surface Water Management Manual for Western Washington and City of Auburn Supplemental Manual.
- City of Auburn Supplemental Manual revised to address LID requirements.
