

PERMIT CENTER

HYDRANT METER PERMIT REGULATIONS

Informational Brochure

January 2019

Prepared by:

City of Auburn

Public Works Engineering

(253) 931-3010
FAX (253) 931-3053

Purpose

The Hydrant Meter Permit Regulations contain the rules, requirements, and fees for Private Party Customers to withdraw water from fire hydrants. These regulations are intended to protect the public water system's water quality, infrastructure reliability, and security.

Introduction

A Private Party Customer is a business or individual not affiliated with the City of Auburn that wishes to withdraw water from City of Auburn fire hydrants. Persons that wish to withdraw water from hydrants located within the jurisdiction of the City of Auburn **must obtain a permit** for one of the following from the Permit Center at the City Hall Annex:

- **Type A** Permit - may be used ONLY to withdraw water from one of the City's three (3) Dedicated Hydrants
- **Type B** Permit – may be used to withdraw water ONLY from City-approved Non-Dedicated Hydrants

An application for a Hydrant Permit is available at the City's Permit Center or on the Forms page on the City's website at www.auburnwa.gov. Hydrant Permits may be issued over the counter after City approval and payment of the permit fees.

Submit application and fees at:

City of Auburn Permit Center
City Hall Annex
1 East Main Street, 2nd Floor
Auburn, WA 98001
(253) 931-3020
FAX (253) 804-3114
permitcenter@auburnwa.gov

Hours: 7:30 am to 5:30 pm Monday through Friday excluding Holidays

Type A Permittee - Water ONLY from a Dedicated Hydrant

A person (the Permittee) who obtains a Type A hydrant permit can **ONLY** withdraw water from Dedicated Hydrants. Dedicated Hydrants are painted red and an "Auburn Permit Water Meter Hydrant" sign is posted nearby. There are two (2) Dedicated Hydrants located on the valley floor and one (1) in the Lea Hill area. AVAILABILITY MAY CHANGE WITHOUT NOTICE. A City of Auburn map depicting the locations of Dedicated Hydrants is available from the Permit Center or at Central Stores after the City issues the Type A permit to the Permittee.

2019 Costs for Dedicated Hydrant Use

Type A Permit Fee:	\$45.00 application fee, which includes purchase of a hydrant wrench and required training on the proper use of the Dedicated Hydrants. Training is conducted at City Maintenance and Operation Center, located at 1305 C Street SW, Auburn, WA and takes about a ½ hour.
Usage Fees:	
Monthly Base Rate	\$45.13 (based on a 3-inch meter)
Plus Usage Charge per 100 cubic feet [ccf] for Commercial customers	\$4.43

Steps to Withdraw Water from a Dedicated Hydrant

1. Person withdrawing water must carry a training certification card, copy of permit, and Water Use Report Form during water withdrawal. Failure to produce the card or permit upon demand from City staff or Auburn Police Department is subject to fines, confiscation of the hydrant wrench, and revoking of the permit.
2. Record the “Start” meter reading on a City of Auburn Water Use Report Form (attached) before hooking up your hose to the Hydrant Meter Assembly secured to each Dedicated Hydrant.
3. After filling is complete, record the “Finish” reading on the Water Use Report Form before unhooking your hose from the hydrant.
4. Report your monthly water consumption to Finance personnel on the **first Monday of every month** or when you close your account, whichever comes first. You must submit a report every month even if your consumption was zero (0) for the month. This report must be faxed, emailed, or hand-delivered to the Finance Department at the City Customer Service Center.

City of Auburn Customer Service Center
1 East Main Street, 2nd Floor
Auburn, WA 98001
(253) 931-3036
FAX (253) 876-1900
utilities@auburnwa.gov

5. If a City-recognized holiday falls on the reportage day, report your monthly usage on Tuesday, the next City work day. Finance will prepare a bill after the monthly report is received. The bill will list account information, water consumption fee and the monthly base rate fee. The Finance Department must receive the total payment due within thirty (30) days of the monthly report date. If payment is not received within thirty (30) days, a reminder bill for the account will be mailed to the Permittee. Payment must be received within ten (10) days from the time the reminder notice was sent.

6. Permittees will continue to receive a monthly bill until they close their account. To close your account, report your Final consumption to the Finance Department. Finance will mail a bill that lists the account information, water consumption fee, monthly base rate fee and any equipment fee and/or applicable fines. The Finance Department must receive the total amount due within thirty (30) days of bill receipt. If payment is not received within thirty (30) days, a reminder bill for the account will be mailed to the Permittee. Payment must be received within ten (10) days from the time the reminder notice was sent.

Type B Permittee - Water from Non-Dedicated Hydrants

The City recognizes that some project activities require on-site access to water. In those cases, the City may allow Non-Dedicated Hydrants to be utilized if there is no effect on other customers or the City's distribution system. The City's Utilities Engineering Division [(253) 931-3010] in the City of Auburn Customer Service Center will review and determine which Non-Dedicated Hydrants may be used for the proposed purpose. Such review process may delay the permit process until a decision is reached.

Once the City grants approval for use of a Non-Dedicated Hydrant and issues the Hydrant Permit, the Permittee will obtain a Hydrant Meter Cart with Reduced Pressure Backflow Assembly (RPBA) from Central Stores [(253) 931-3067] located at:

City of Auburn Maintenance and Operations (M&O) Services
1305 C Street SW
Auburn, WA 98001
(253) 931-3048
Hours: 8:00 am to 3:30 pm Monday through Friday excluding Holidays

The Permittee will spend about an hour at M&O receiving the training on the use of the Hydrant Meter Cart and obtaining the cart.

The Hydrant Meter Cart contains a portable water meter assembly consisting of an adapter, water meter, gate valve, hydrant wrench, authorized water withdrawal signage, Reduced Pressure Backflow Assembly (RPBA), hose and hand truck.

The Hydrant Meter Cart will ONLY be allowed to be used at the approved, designated location.

2019 Costs for Non-Dedicated Hydrant Use

Type B Permit Deposit: \$2,110.00 refundable deposit, which includes rental of a Hydrant Meter Cart with RPBA, valve, and wrench, and required training on the proper use of the Hydrant Meter.

Usage Fees:

Monthly Base Rate \$45.13 (based on a 3-inch meter)

Plus Usage Charge
per 100 cubic feet
[ccf] for Commercial
customers \$4.43

Steps to Withdraw Water from a Non-Dedicated Hydrant Using a Hydrant Meter Cart

1. The person withdrawing water must carry training certification card and a copy of permit during water withdrawal. Failure to produce the card or permit upon demand from City staff or Auburn Police Department is subject to fines, confiscation of the hydrant wrench, and revoking of the permit.
2. Central Stores will record the Hydrant Meter Cart "Start" reading when the Hydrant Meter Cart is checked out.
3. Report your monthly water consumption to Finance personnel on the **first Monday of every month**. You must submit a report every month even if your consumption was zero (0) for the month. This report must be faxed, emailed, or hand-delivered to the Finance Department at the City Customer Service Center.

City of Auburn Customer Service Center
1 East Main Street, 2nd Floor
Auburn, WA 98001
(253) 931-3036
FAX (253) 876-1900
utilities@auburnwa.gov

4. If a City-recognized holiday falls on the reportage day, report your monthly usage on Tuesday, the next City work day. Finance shall prepare a bill after the monthly report is received. The bill will list account information, water consumption fee and the monthly base rate fee. The Finance Department must receive the total payment due within thirty (30) days of the monthly report date. If payment is not received within thirty (30) days, a reminder bill for the account will be mailed to the Permittee. Payment must be received within ten (10) days from the time the reminder notice was sent.
5. **IMPORTANT NOTE:** The Hydrant Meter Cart must be returned to the City **annually** for inspection during the month when the Cart was originally checked out. Central Stores will contact the Permittee to return the Cart. **Failure to return the Cart annually will result in the Deposit being forfeited.**

6. During the annual inspection, Central Stores will inspect the Cart for damage and have the Permittee sign a form agreeing to pay for the damages. Finance will bill the Permittee for damages. If the Permittee still needs to use the Cart, Central Stores will issue a new Cart.
7. Permittees will continue to receive a monthly bill until they close their account. To close the account, return the Hydrant Meter Cart to Central Stores.
8. Central Stores will provide Finance with the "Finish" reading of the Hydrant Meter Cart when it is returned. When the account is closed, the equipment collateral deposit for the Hydrant Meter with RPBA Assembly is refunded in full after the property is returned, inspection determines that it is in acceptable condition and the water consumption fee, monthly base rate fee, and fines, if applicable, are paid in full. If the complete assembly is lost, the entire deposit fee shall be forfeit. If the portions of the assembly are lost or damaged, charges reflecting repair or replacement and estimated water consumption will be deducted from the deposit. Finance shall mail out a bill receipt listing account information, water consumption fee, monthly base rate fee, and any equipment fee or fines that may be applicable. The Finance Department must receive the total amount due within thirty (30) days of bill receipt. If payment is not received within thirty (30) days, a reminder bill for the account will be mailed to the Permittee. Payment must be received within ten (10) days from the time the reminder notice was sent.

Additional Requirements

Hydrant Operator Training Program

Any person that uses a hydrant, other than authorized City employees, must receive hydrant operation training. The training includes hydrant operation and Hydrant Meter with RPBA Assembly orientation. The training is performed by City of Auburn Water Department staff and a certificate will be issued to those who pass the instruction. The certificate is valid for a period of three years. Contact the City's Maintenance and Operations Services at 1305 C Street SW, Auburn, or (253) 931-3048.

Documentation and Certification

Water Use Report Forms, Permit documentation, and Trained Hydrant Operator Certificates must be available for perusal by City staff upon request. Permit information must correspond with the person withdrawing water.

A Permittee or Trained Hydrant Operator is not allowed to loan a permit, Trained Hydrant Operator Certificate, hydrant wrench or Hydrant Meter Cart with RPBA Assembly to a second party.

Protection of City Property

It shall be the responsibility of the Permittee and Trained Hydrant Operator to use and protect the hydrant and surrounding infrastructure in accordance with City guidelines. Permittees must promptly report any damage to the City of Auburn Water Distribution Supervisor. Any damage sustained to the noted structures that are due to operator error are the responsibility of the Permittee noted on the permit application. Repair or

replacement charges may be applied against deposits and if the charge is higher, the Permittee shall be responsible for paying the difference.

Revocation

The City reserves the right to cancel a permit or Trained Hydrant Operator Certificate at any time for any reason. The Permittee or Trained Hydrant Operator shall return the permit, Trained Hydrant Operator certificate, and City-owned equipment, and shall pay all fees and/or fines within ten (10) calendar days of receipt of cancellation.

Equipment Interference

Disassembly or tampering of any Hydrant, Dedicated Hydrant Meter Assembly, or Hydrant Meter Cart with RPBA Assembly is prohibited.

Hydrant Wrench Use

Using any tool, other than the City-supplied hydrant wrench, to operate the hydrant operating nut is prohibited.

Additional Fees, Service Charges, and Damage Charges

The City reserves the right to assess additional fees, services, and damage charges in accordance with the Auburn City Code (ACC) and current Fee Schedule, including but not limited to:

- Failure to record "Start" read properly
- Failure to record "Finish" read properly
- Failure to submit Monthly Water Consumption Report to the City
- Non-Payment of bill within 10 calendar days of reminder notice
- Non-Return of Hydrant Meter with RPBA Assembly after request for return
- Using a hydrant without Hydrant Operator Training Documentation on Hand
- Using a hydrant without Operator Training Documentation
- Using a hydrant without Permit Documentation on Hand
- Using a hydrant without Permit Documentation
- Loaning out a Hydrant Meter with RPBA Assembly to an Unauthorized Party
- Using a tool, other than the City-supplied Hydrant Wrench to operate a hydrant
- Damage to hydrant or infrastructure
- Non-Response to revocation of Permit or Trained Hydrant Operator Certificate
- Disassembly or tampering of Hydrant, Hydrant Meter Assembly or Hydrant Meter with RPBA Assembly

Monthly Water Use Report Form for Dedicated Hydrants

Dedicated Hydrants are painted red, and a “Auburn Permit Water Meter Hydrant” sign is posted nearby. There are two (2) Dedicated Hydrants located on the valley floor and one (1) in the Lea Hill area. A City of Auburn map depicting the locations of Dedicated Hydrants along with a photo of a Dedicated Hydrant is attached for your use.

Meters measure water in hundred cubic feet of water (CCF) increments. The first digit on a meter register (black) is stationary (fixed) and does not rotate. The second digit (black) measures in 10 cubic feet so a digit reading 3, for example, would indicate 30 cubic feet and is registered as a decimal. The third digit (white) reads as a hundred cubic feet so a digit reading of 3, for example, would indicate 300 cubic feet. The fourth digit (white) reads as a thousand cubic feet so a digit reading of 3, for example, would indicate 3000 cubic feet. The remaining white digits increase in the same incremental fashion.

Example

Hydrant Number	Date (Mo/Day/Yr)	Time	Start Read	Finish Read	(CCF) - Finish Read Minus Start Read
2	02/23/04	10:23 am	1256.4	1749.6	493.2

The example above represents one (1) withdrawal of water from a hydrant equal to 493.2 CCF. Each time you withdraw water, record the Start and Finish readings on the following form.
